Thank you so much for choosing music education! I look forward to making music with you! - Mr. Jordan

“...there is little doubt that regular exposure to music, and especially active participation in music, may stimulate development of many different areas of the brain. In terms of brain development, musical performance is every bit as important educationally as reading or writing.” - Oliver Sacks, Neurologist and Writer

“The arts are an essential element of education, just like reading, writing, and arithmetic... music, dance, painting, and theater are all keys that unlock profound human understanding and accomplishment.”
- William Bennett, Former US Secretary of Education

“Music has a power of forming the character, and should therefore be introduced into the education of the young.”
- Aristotle

ABOUT MR. JORDAN

Background

Jordan Garno began playing guitar with his father and brother at 11 years old, and began studying music formally not long after. He attended USF where he studied Jazz Performance, and has been teaching private guitar and piano lessons since 2010.

Nice to meet you!

When I first began playing music I was inspired by blues, jazz and soul artists like Jimi Hendrix, B.B King, and Pat Metheny. One of my favorite things about teaching is exposing younger generations to new music and fostering a love and appreciation of the greats!

Music Instruction

Whether we begin our instruction on guitar or piano we will cover foundational technique and theory, tailored to each student's individual level.
